

SUMMER 2014 WORKSHOP PARTICIPANT COMMENTS

*All respondents would recommend or attend TLCN Workshops in the future.
All respondents thought the number and kind of workshop offerings are appropriate.*

Comments:

- I couldn't have asked for a better experience! Thank you very much!
- As previously stated, one of the best workshops I have attended in over 20 years of teaching. Gave me many new strategies that I am eager to implement in my classroom.
- They were great!!
- The workshop I attended was for Google. It was relevant for my needs as the district goes to a 1:1 initiative for Chromebooks using google. It was packed with ideas and using the Google community I can continue to access the information in the future.
- I felt that class was great. I took away several strategies that I will use in my teaching.
- AWESOME! I plan on taking more workshops with TLC Network.
- It was an excellent use of my time. I will use the new material OFTEN in my teaching, AND share the information with my peers.
- Very informative and useful workshops. Incredibly useful to me, great environment, and wonderful lunches. Great value too!
- It was well worth the time!! The teachers were professional and full of ideas that one can use immediately in their classroom. Very valuable. Thanks
- Small class size, lots of networking, and hands on experiences.
- *Presenter* gave us lots of great ideas and tools that we can take back and use in our school and classrooms.
- I would love to see a second level of the CRISS workshop and I would love to attend a workshop on math strategies.
- Definitely [*when asked if they would take another class or recommend TLC workshops to others*]
- A CRISS part two workshop for sure!
- Large amount of hands on relevant strategies were learned.
- Many very viable strategies!
